### **Clickstream Data**

Clickstreams are the paths a user takes when navigating a web page or the internet in general. When you visit our web site our Internet Service Provider makes a record of your visit and logs the following information for statistical purposes – the user's server address, the user's top level domain name (for example .com, .gov, .au, .uk etc), the data and time of visit to the site, and the type of browser used.

## **Cookies**

A cookie is a short piece of data that is sent from a web server to a web browser on the user's machine when the browser visits the server's site. The cookie is stored on the user's machine, but it is not an executable program and cannot do anything to your machine.

Whenever a web browser requests a file from the same web server that sent the cookie, the browser sends a copy of that cookie back to the server along with the request. In this way, the server knows you have visited before and can co-ordinate your access to different pages on its web site. A server cannot find out a name or e-mail address, or anything about a user's computer, by using cookies.

Please contact us on [info@hillgroveresouces.com.au](mailto:info@hillgroveresouces.com.au) if you wish to discuss any Privacy Issues.
